

# BUILDING GOLD RESOURCES IN HISTORIC KLONDIKE GOLDFIELDS

## INVESTOR PRESENTATION

Peter Tallman, CEO | (Virtual)  
June 2021

KG | TSX Venture Exchange  
LBDP | Frankfurt Exchange  
KDKGF | US OTC Exchange

# FORWARD LOOKING STATEMENTS

Statements contained in these following slides and accompanying oral presentation contain certain forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995 and forward looking information within the meaning of the Securities Act (Ontario) and similar legislation in other jurisdictions. Forward-looking statements can be identified by the use of words such as “plans”, “expects” or “does not expect”, “is expected”, “budget”, “scheduled”, “estimates”, “forecasts”, “intends”, “anticipates” or “does not anticipate”, or “believes”, or variation of such words and phrases or state that certain actions, events or results “may”, “could”, “should”, “would”, “might” or “will” be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Klondike Gold Corp. (“Klondike Gold”) to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. These forward-looking statements include estimates, forecasts, and statements as to management’s expectations with respect to, among other things, business and financial prospects, growth potential, the size, quality and timing Klondike Gold’s exploration and possible development projects, mineral reserves and mineral resources, future trends, plans, strategies, objectives and expectations.

These forward-looking statements involve numerous assumptions, risks and uncertainties and actual results may vary materially. These statements are based on a number of assumptions, including, but not limited to, assumptions regarding general business and economic conditions, interest rates, the supply and demand for, inventories of, and the level and volatility of prices of gold, silver, zinc, lead, or copper, the availability of financing for Klondike Gold’s programs on reasonable terms, the accuracy of Klondike Gold’s resource estimates (including, with respect to size, grade and recoverability) and the geological, operational and price assumptions on which economic resource models are based, the resolution of environmental permitting and other proceedings, the capacity to obtain qualified personnel, consultants, and contractors and the future operational financial performance of the company generally. The foregoing list of assumptions is not exhaustive.

Events or circumstances could cause actual results to differ materially. Such events include, among others, unanticipated developments in business and economic conditions in the principal markets for commodities and/or financial instruments, changes in the supply, demand, and prices for metals and other commodities, the actual results of exploration activities, conclusions of economic evaluations, uncertainty in the estimation of ore reserves and mineral resources, changes in project parameters as plans continue to be refined, changes in economic and political stability in jurisdictions where Klondike Gold has business interests, environmental risks and hazards, legal disputes, increased infrastructure and/or operating costs, labour and employment matters, and government regulation as well as those factors discussed in the section entitled “Risk Factors” in Klondike Gold’s Annual and Quarterly Reports and associated financial statements, Management Information Circulars and other disclosure documents filed with Canadian securities regulators. Although Klondike Gold has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Klondike Gold disclaims any intention or obligation to update or revise any forward-looking statements, whether as a results of new information, future events or otherwise. Accordingly readers/listeners should not place undue reliance on forward-looking statements.

# INVESTMENT STORY OVERVIEW

The “Klondike Gold Rush of 1896”: most iconic gold rush in the world.

20 Million gold ounces extracted from creeks;  
“no known source” with gold considered “eroded from bedrock”.

From 2015:

- new management / new thinking / new discoveries
  - exceptional potential recognized
- Maiden resource planned 2022 / first ever resource in Klondike
  - Pipeline of other significant targets.

Transformational milestone(s) 2021-2022.

The best kept ‘secret’ gold investment opportunity.

# CAPITAL STRUCTURE

## TSXV Listed, Symbol: KG

Current Price	\$0.23	Market Capitalization	\$30 M
Shares Outstanding (Basic)	133 M	Avg. Daily Volume	225k
(Fully Diluted)	179 M	Cash	\$3.5 M
	Options (WAP - \$0.25)   11.7 M	Warrants	\$11.9 M
	Warrants (WAP - \$0.35)   34.2 M		
52 Week High	0.45	2021 Budget	\$3.2 M
52 Week Low	0.14		

## Klondike Gold Management

**Peter Tallman - President, CEO & Director**

- Professional Geologist
- 35 years experience in the mining industry
- Discovery, delineation of three mineral deposits.
- 25 years corporate experience as Exec Officer/Director.

**Ian Perry - Vice President Exploration**

- Professional Geologist
- 35 years exploration/management, one deposit discovery, worked Canada / International (Noranda)

**Jasvir Kaloti - Chief Financial Officer**

- VP Corporate Finance for Fiore Management
- CFO for various major companies; Canada and international finance experience
- Takeover & mergers (Leagold/Equinox, Lithium X)

## Klondike Gold Board of Directors

**Gordon Keep**

- 30 years experience in corporate finance (Yorkton Sec VP Finance)
- CEO of Fiore Management & Advisory Group
- Professional Geologist

**Tara Christie**

- 25 years of experience in the mining industry
- President & CEO of Banyan Gold Corp.
- Director of the Prospector & Developers Association of Canada
- P. Eng.

**Steve Brunelle**

- 30 years of exploration & management experience
- Officer or Director of numerous TSX.V listed companies
- Developed two discoveries (Stingray Cu, Corner Bay Ag)

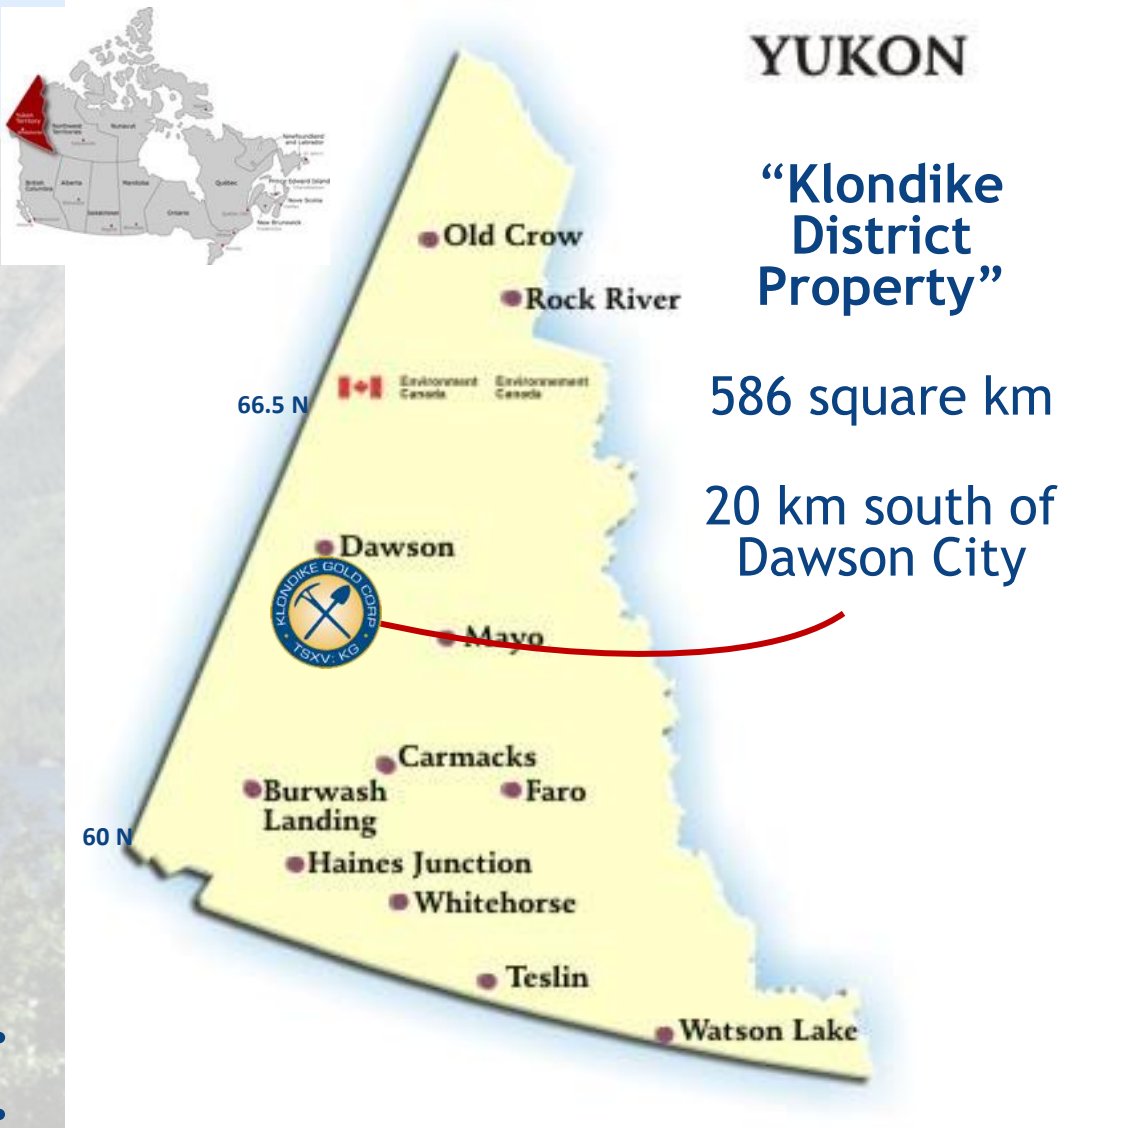

**John Pallot**

- 32 years telecommunication experience
- Executive Officer and/or Director of numerous resource issuers since 1993 (Windarra, GT Gold)

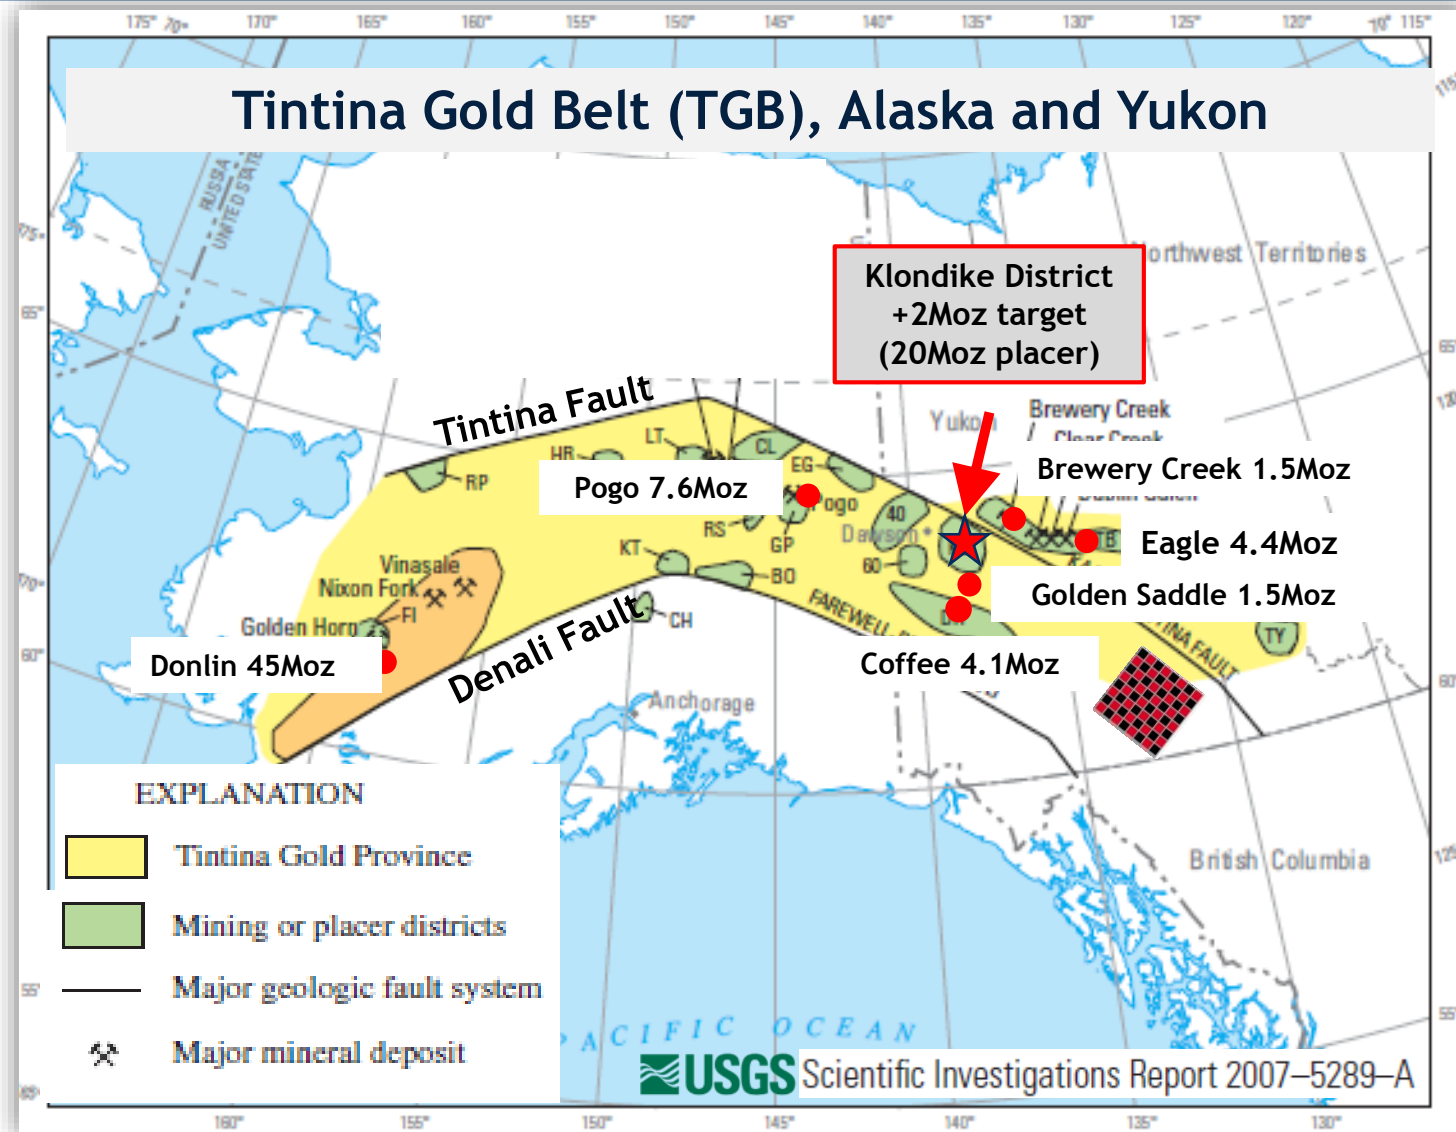

# MAJOR ASSET: KLONDIKE DISTRICT PROPERTY

**Dawson City, YT.**  
**Tr’ondëk Hwëch’in First Nation Territory.**

# WORLD CLASS GEOLOGY

## Tintina Gold Belt (TGB), Alaska and Yukon

- TGB is known to host World-Class gold deposits; in Alaska ~100+Moz (Ex. Pogo)
- Flexure in crustal scale 1<sup>st</sup> order faults create “world-class” deposit environment by creating the fault network (gold conduits) to host them.
- Continent-scale structures have ‘checkerboard’ old/young fault pattern which control gold mineralization.
- These ‘checkerboard’ faults now recognized as controls to gold mineralization in Klondike District.

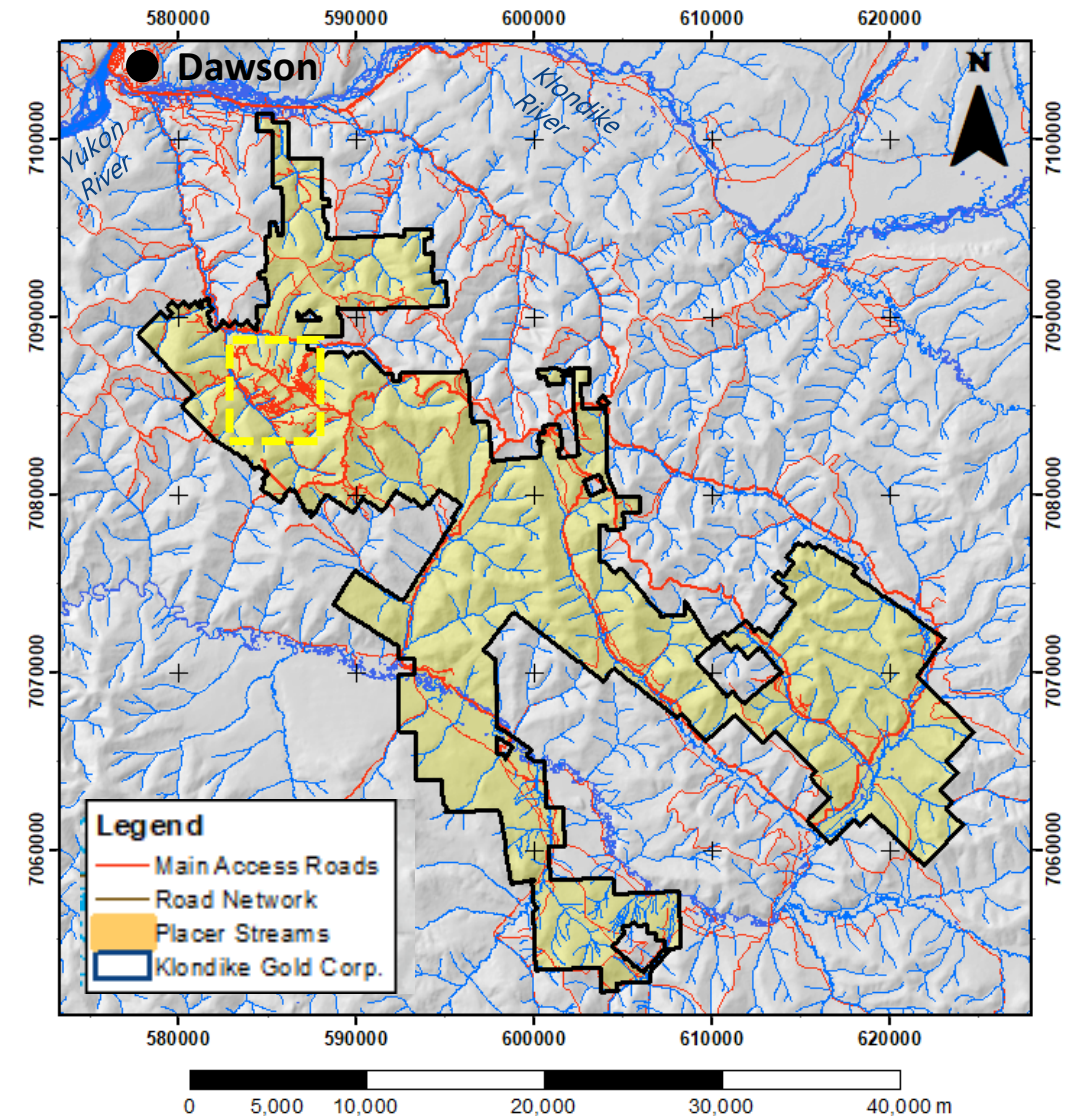

Figure Note: Gold resource endowment is sourced from company disclosures or government sources, for comparative purposes only.

# WORLD CLASS POTENTIAL

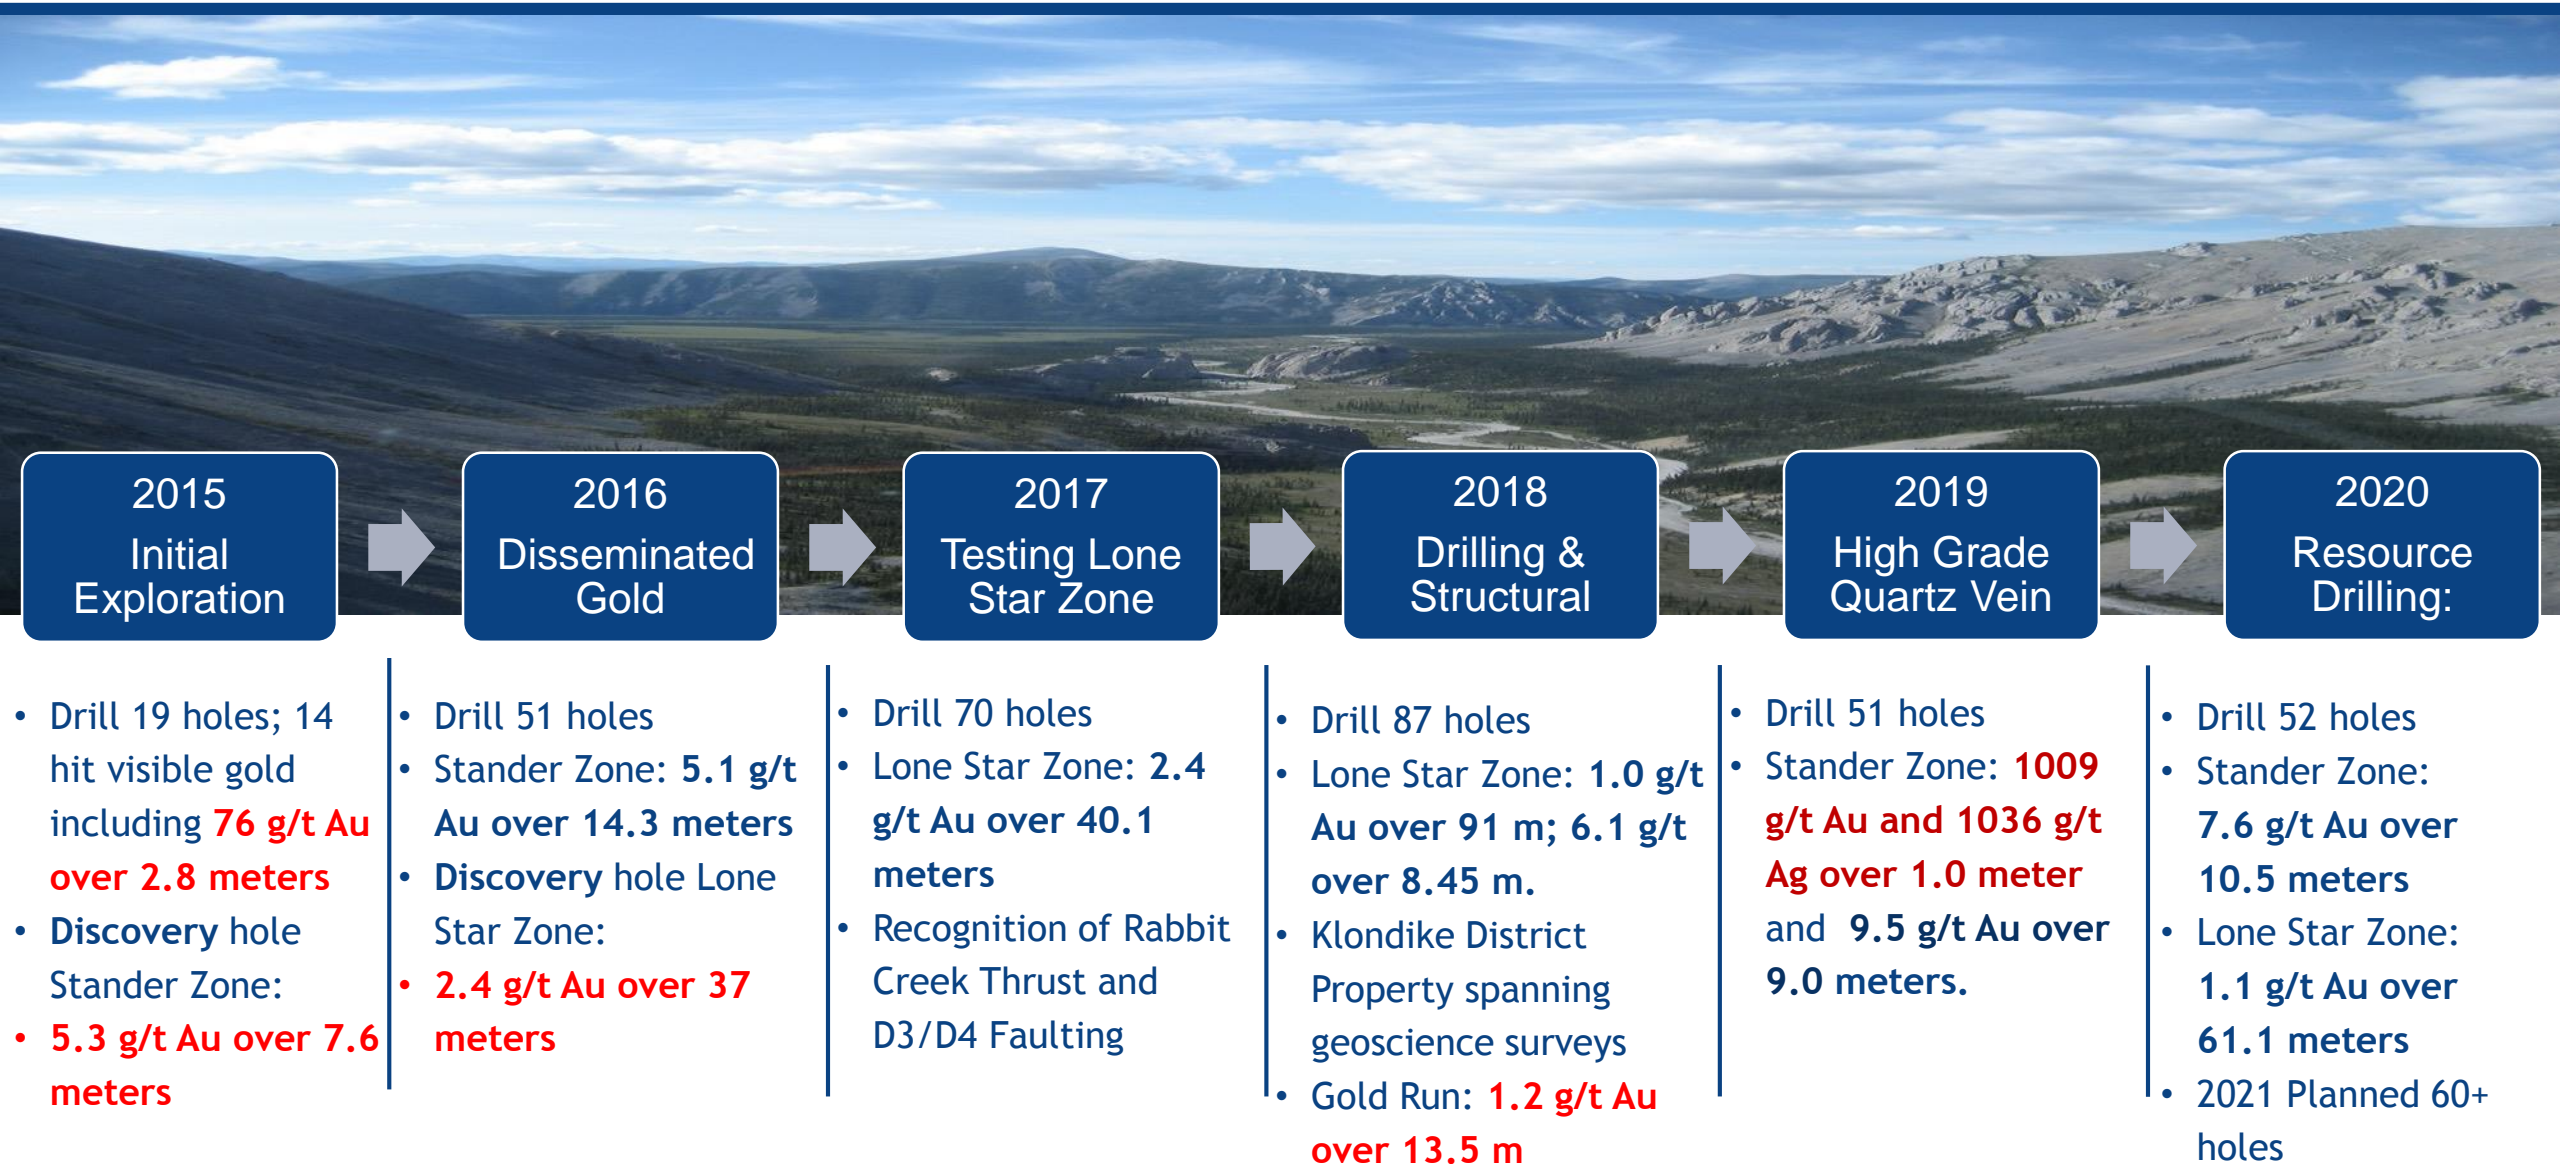

## The Klondike District Property

- 20 M oz Au extracted from the Klondike District Property creeks from 1896 - present
- Largest unexplained Au geochemical anomaly remaining on the planet.  
Now explained.
- Work (2015-2021) discovers multiple multi-kilometer gold-bearing structural sources.
- Resource delineation program has begun, targeting Au resources within yellow box area as a start.

# ROAD TO DISCOVERY: DRILL PROGRAMS

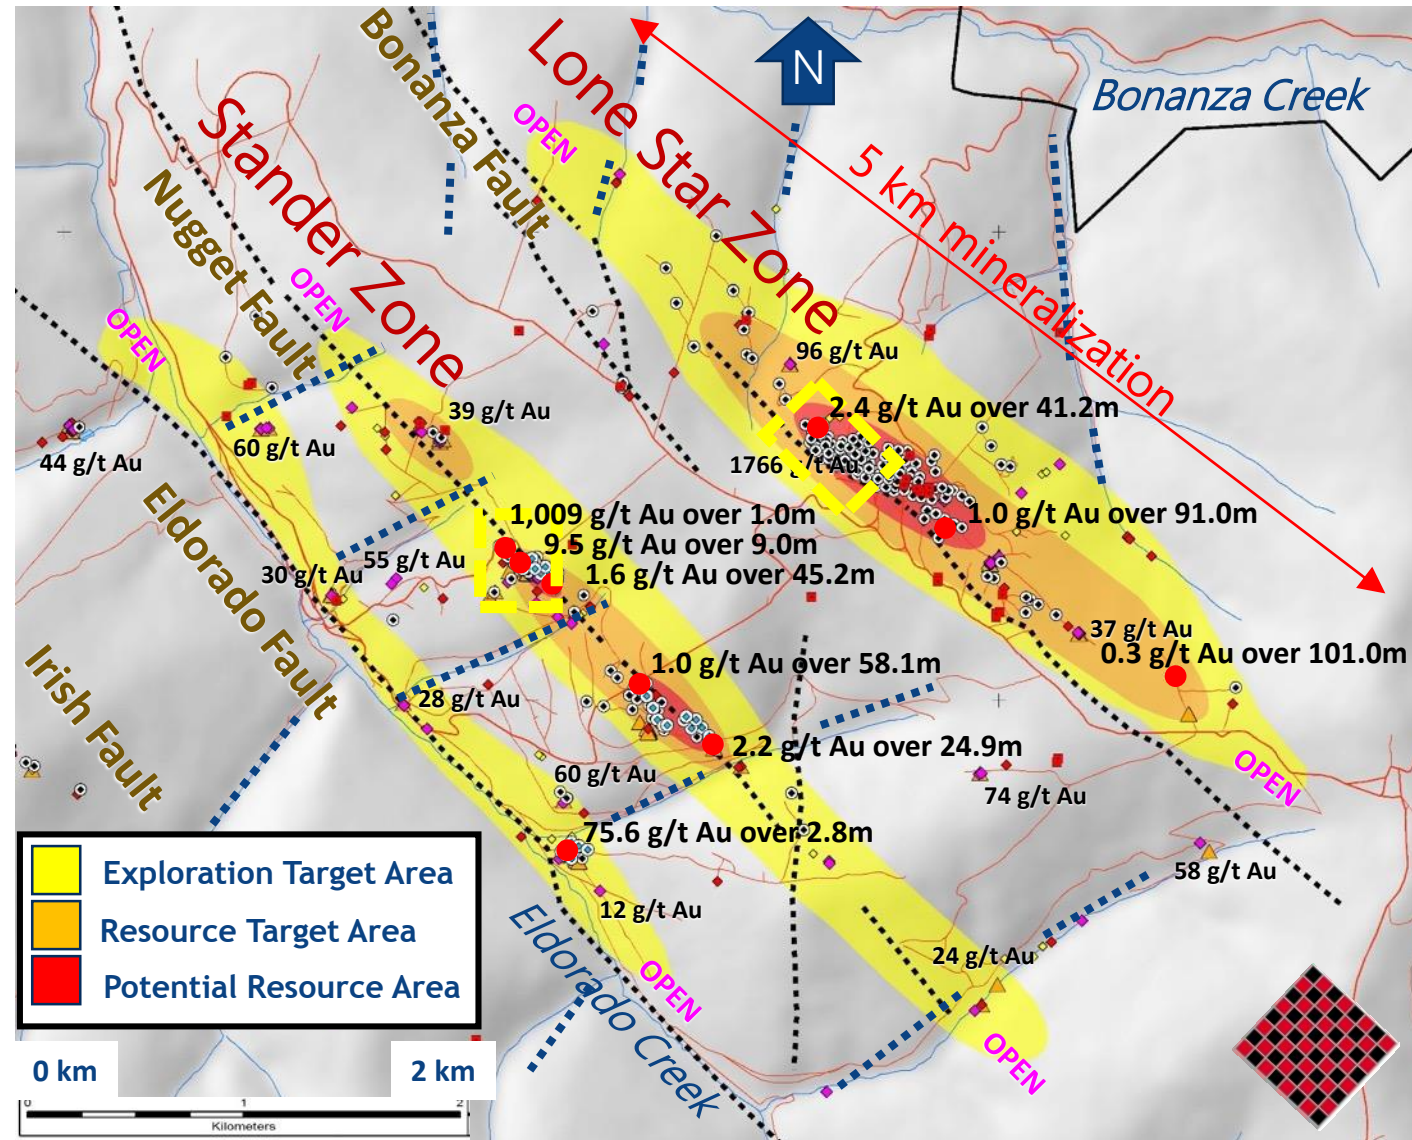

# MULTI-KILOMETER GOLD BEARING STRUCTURES

**Multi-million ounce gold potential.**

**Drilling Towards Maiden Resource**

**Current Objective: 'Starter open-pit' mineralization**

- 55 km length
- 580 sq km area
- ~10% explored in some detail
- Pipeline of target "Zones"
- Resource drilling 2021

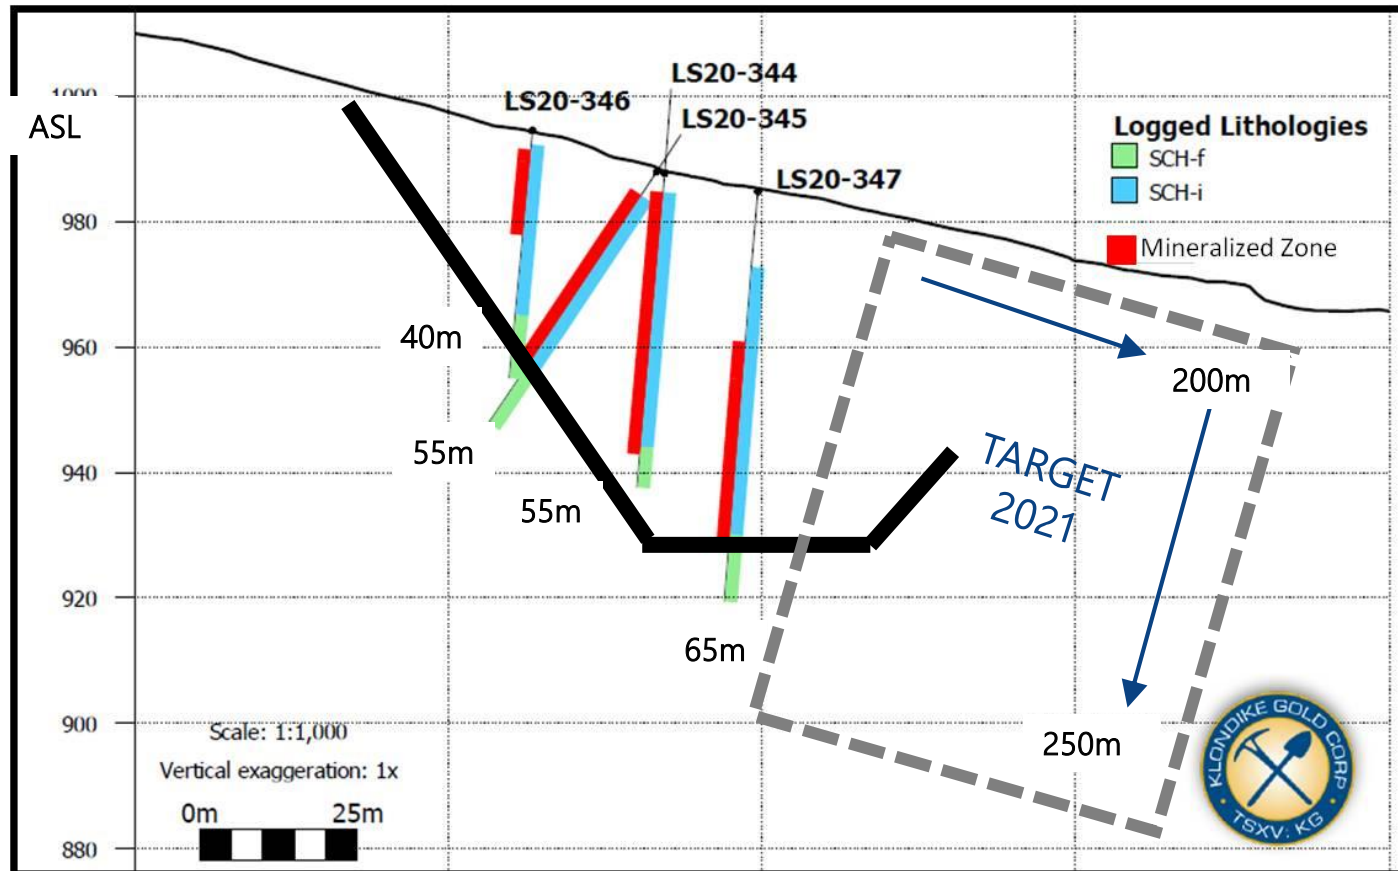

# LONE STAR ZONE: 2020 DRILLING SCHEMATIC GEOMETRY

## Pit Schematic Section With Drilled Section Results

Conceptual 'Starter Open Pit'  
mineralization geometry

### 2021 Plan

- 7,500 meter drill program

### 2021-2022 Plan

- NI43-101 compliant Geology report
- NI43-101 compliant Resource report
  - Consider PEA

### MODEL TARGET PARAMETERS

- 3,500m length of mineralization
- 600m to 900m in maiden resource
- Gold at surface to 60m depth, OPEN
- 60+ meters surface width
- 2.6 specific gravity
- 90+% gravity recovery

# STANDER ZONE: OUTCROP TO PLACER

## New 2020 Discovery

Sub-cropping  
gold in thrust.

Trenching and  
drilling target  
2021.

Outcrop nugget of gold in  
Upper Eldorado Creek.

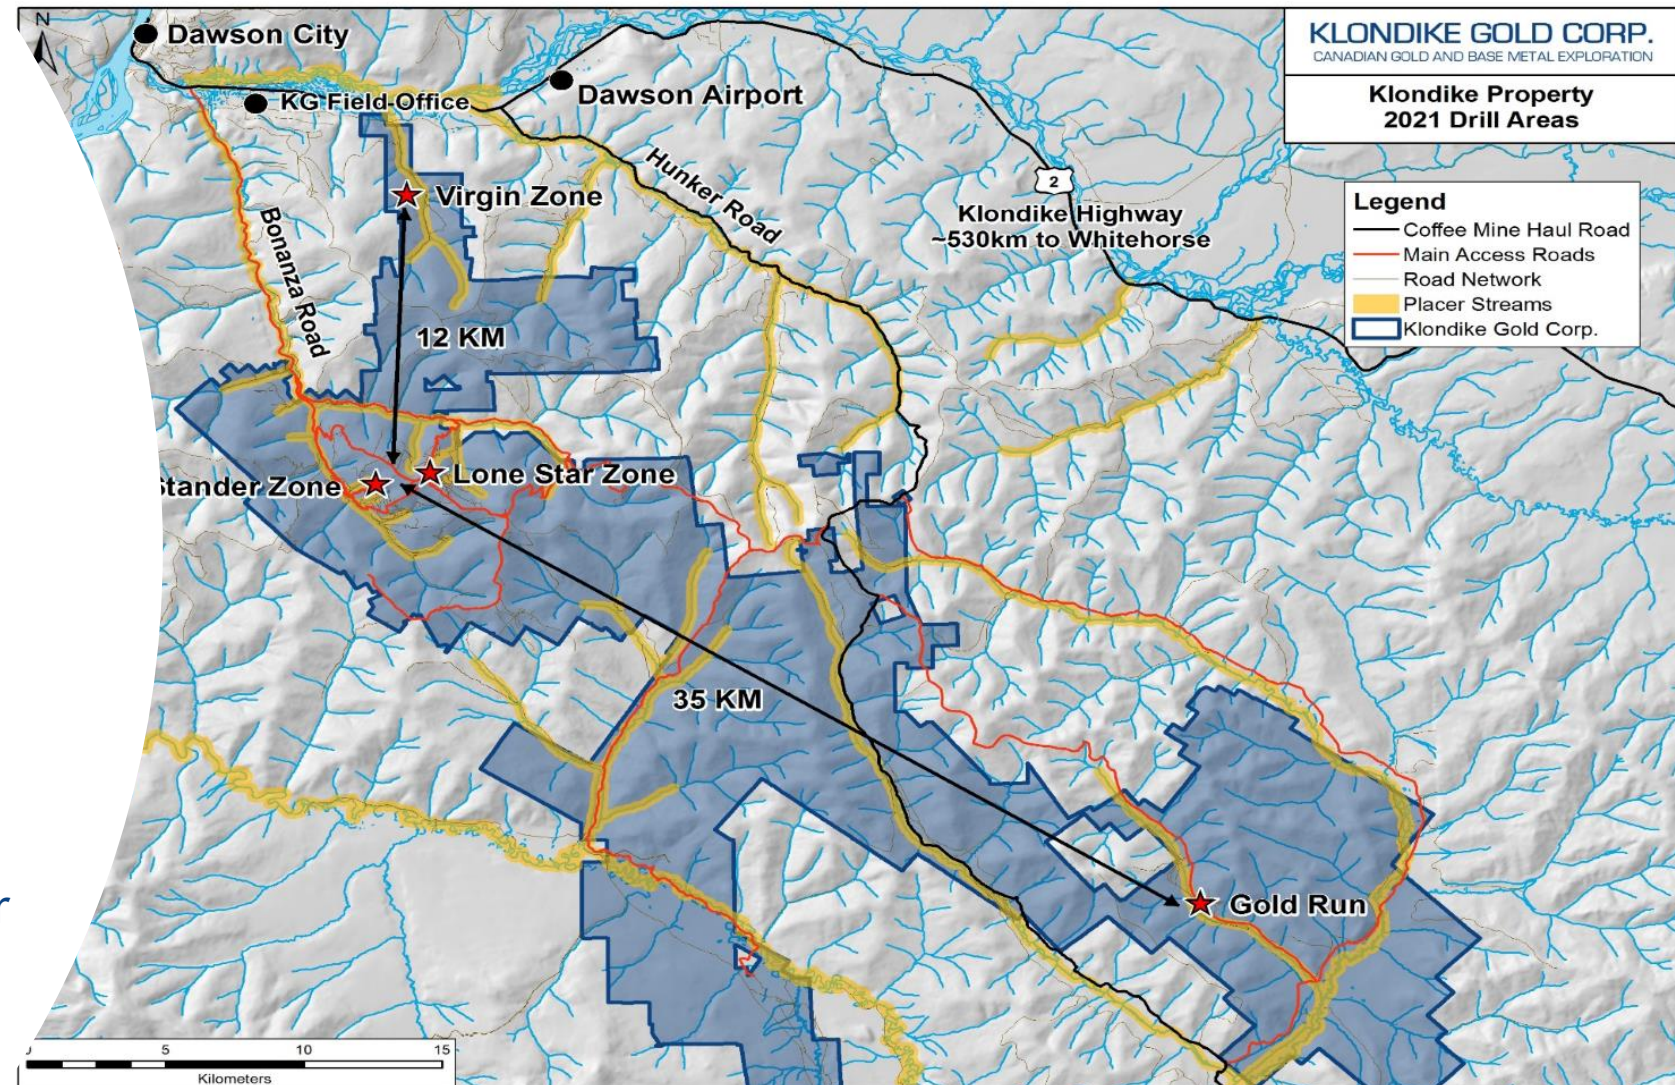

# 2021 DRILL TARGET SUMMARY

## Klondike District Potential

- **Lone Star Zone**
- resource target, 26 holes so far
- **Stander Zone**
- resource target, 25 holes planned
- **Virgin/Lindow Targets**
- 5 holes in 2021; results pending
- **Gold Run Target:**
- 4 drill holes in 2018, all with gold
- GR18-162: 1.2 g/t Au over 13.5m
- Teck 1981-1998 Gold Run 25koz/yr  
“most profitable mine in company history”

# INFRASTRUCTURE ADVANTAGE

- ❑ 20km to drill from Dawson on government road
- ❑ Proximity to Dawson power substation and YT e-grid
- ❑ Adjacent to airport / airlines
- ❑ On Klondike Highway
- ❑ “Pan of Gold Pizza” delivery to drill at Lone Star with cell service

Pinnacle Digest 2019 Podcast video screencaps

## **Kinross Gold Corp to fully acquire Underworld Resources at 36% premium**

March 2010: \$140M for 1M oz Ind + 0.47M Inf      \$100/oz Au

---

## **Goldcorp to buy Kaminak Gold for \$520 million**

May 2016: \$520M for 5M oz Ind + Inf      \$100/oz Au

## **Rio Tinto buys \$25M stake in Yukon's Casino mine project**

May 2021: \$25.6M for 8% of WRN

# INVESTMENT HIGHLIGHTS

Multi-million ounce gold potential. District scale potential. Pipeline of targets. Over-looked.

Drilling through 2021. Valuation re-rate upon maiden resource milestone 2022.

Drilling 2021 news into an accelerating gold market.

Infrastructure is enormous cost efficiency and economic advantage.

# ANTICIPATED MILESTONE EVENTS

US OTCBX listing 3Q2021

Silver Symposium Couer D'Alene 3Q2021

Maiden NI43-101 Geology 4Q2021.

News flow: 70+ drill hole results 3Q2021-1Q2022

Maiden Mineral Resource Estimate 4Q2021-2Q2022

# THANK YOU
